

Choir / Worship leader

Full guide: worship planner, permissions, diagrams • **Worship** (🎵) • **Shanah Worship (Choir)**

WHAT THIS HELPS YOU ACHIEVE

- Plan Sunday services in one place instead of scattered chats
- Give each singer and musician their part, charts, and practice audio
- Keep rehearsal, upload duty, and schedules visible to the whole team

EVERY CHOIR MEMBER

- **My Part** — role notes and practice tracks
- **Rehearsals** — rehearsal recordings
- **Schedule** — upcoming assignments
- Request **time away** on the choir calendar
- Group chat, events, and polls

MONTHLY ACCOUNTABILITY

- **Groups** → **Shanah Worship (Choir)** → **Report**
- Due by the **5th** for the prior month

IN THIS DOCUMENT

1. Who can access & edit the planner
2. How to open the Worship planner
3. Planner tabs overview
4. Step-by-step: plan one service
5. Publish vs draft • team readiness
6. Monthly leader rotation
7. What members should do
8. Weekly rhythm & troubleshooting

WORSHIP GROUP LEADER ONLY

- **Service plan** — setlists and roles
- Rehearsal time and upload duty
- **Publish** plans for the team
- Copy plans between service times
- Song library and rotation schedule

BEFORE YOU START

- Join the choir group in **Groups**
- Complete **Before You Serve** training
- Choir uses **Worship**, not FrontLiners

Training tip: Publish the service plan early so the team can open **My Part** before rehearsal.

Who can do what

Access requires sign-in, membership in **Shanah Worship (Choir)**, and full group access (complete **Before You Serve** if the app shows it pending).

Role	Open planner	Build & publish plans	Song library & rotation
Choir member	Yes	No	View schedule only
Choir group leader (Leader on Manage tab)	Yes	Yes	Yes
Admin Group (church app admin)	Yes	Yes	Yes

Assistant leaders can manage regular members in Groups but **cannot** change worship leadership roles in the planner by themselves.

Figure 1 — From sign-in to Worship planner access

How to open the planner

- 1. **Menu** — Tap **Worship** (🎵) in the app (after choir access).
- 2. **Group calendar** — **Groups** → **Shanah Worship (Choir)** → **Calendar** → **Open planner**.
- 3. **Web path** — Open **/worship** while signed in.

Planner tabs

Tab	Leaders	Team members
Service plan	Setlist, team, notes; save & publish	View plan; mark prepared & ready
My part	Notes, YouTube, practice audio for your assigned part	
Rehearsals	Upload / manage recordings	Listen
Schedule	Leader rotation pool, generate & approve	Team schedule — who leads when
Song library	Reusable songs, charts, YouTube	Not shown

Step-by-step: plan one service (leaders)

1. Pick the service

On **Service plan**, choose date and time:

- **9:00 AM, 10:00 AM, 11:30 AM** (Sunday)
- **7:00 PM** (Friday worship)

Shortcuts: **Copy from last Sunday** · **Copy to time** (same day, another slot).

2. Build the setlist

- **Add from library** or **Add song**
- Set title, key, BPM, segment (opener, worship, offering, etc.)
- Order with Up/Down; expand song for charts, YouTube, part notes, practice stems

3. Rehearsal & calendar

- Rehearsal date & time (push reminder ~24h before, if enabled)
- Optionally link a choir calendar event

4. Team roster

- Add members from the choir group
- Set role (worship leader, singer, musician, tech) and **part** (soprano, keys, ...)
- Assign **upload duty** for songs & YouTube before service

Figure 3 — Leader workflow for one service

Save, publish, and run sheet

Action	What happens
Save draft	Saves work; team still sees “Plan not published yet”
Publish for team	Full plan visible; members mark prepared & ready
Unpublish	Returns to draft (hides from team)
Run sheet	Opens printable flow for stage / sound (after plan exists)

Team readiness (after publish)

- **Team readiness** — count of members who marked **Ready**
- **Member progress** — songs marked prepared per person
- Approve pending member practice uploads in song workspace when needed

Schedule tab — monthly leader rotation

1. Open **Schedule** (leaders only for editing).
2. Add worship leaders to the **rotation pool**.
3. Set default service time, Sunday vs Friday, weeks ahead, skip dates.
4. **Save** settings → **Generate schedule** → **Approve** (notifies choir).

Members use the same tab as **Team schedule** (read-only) to see who leads upcoming services.

Song library (leaders)

- Search and maintain reusable songs (key, BPM, CCLI, notes)
- Paste YouTube links; upload charts once
- **Add to plan** on future Sundays

Choir calendar & absences

Groups → **Shanah Worship (Choir)** → **Calendar** — events, rehearsal dates, unavailability requests (leaders approve time away).

What choir members should do

1. Open **Worship** → **Service plan** after the leader publishes.
2. Read rehearsal notes and setlist (keys, charts).
3. Use **My part** for their line (soprano, keys, etc.).
4. **Mark prepared** on each song, then **Mark myself ready**.
5. Use **Rehearsals** for uploaded recordings.

Suggested weekly rhythm for leaders

Figure 5 — Suggested leader rhythm

Troubleshooting

Issue	Fix
No Worship in menu	Join choir; finish Before You Serve if pending
Can't edit plans	Must be choir Leader or Admin Group
Team sees empty plan	Publish for team , not only Save draft
My part empty	Leader adds to roster + assigns a part
Can't remove a leader in Groups	Promote another leader first (group must keep one leader)

Share this guide: Profile → Training handouts → **Choir / Worship leader**, or download **choir-worship-leader-guide.pdf** from the handout page.
